a book review of makers the new industrial revolution

May 21st, 2020 - makers the new industrial revolution is a book that helps us put into perspective the impact that the maker culture will have in the following years on the renaissance of manufacturing while showing us how we can apply the new revolution to the lessons we've learned from the second industrial revolution of 1850 and the more recent emergence of desktop puters in the 1980 s"
