March 3rd, 2020 - What makes the problem of additional financing so urgent this year is the rise of the state's rate and absolute growth in population. Between 1950 and 1960 Florida's population went up by 2.2 million. Between 1960 and 1965 it has risen from 4.9 million to over 6 million.

and has gotten close to 7 million now'
