Land management in upland areas

December 13th, 2019 - Main Issue 10 Land management in upland areas Background The open moorlands of the Cairngorms National Park are an integral part of the landscape character of the Park as well as a valuable habitat Moorland is used for both field sports and farming

and its management is key to delivering several public interest priorities"**Long term vision required for Scottish agriculture**

December 19th, 2019 -

David Johnstone chairman of Scottish Land and Estates said ?Whilst we appreciate that the stability and simplicity consultation focuses on the short term transitional period there

is a clear need to seize this opportunity to open a larger review of where and how Scottish agriculture might move forward"

Hunting and shooting in the United Kingdom ? Wikipedia

December 5th, 2019 -

Habitat destruction and fragmentation are major drivers of biodiversity loss in the United Kingdom

however landowners that participate in field sports particularly hunting and shooting are more likely to conserve and reinstate woodlands and hedgerows because they are utilized by quarry species'
