June 1st, 2020 - sound  
recording or audio recording is  
the storage of sounds so that  
they can be heard again in  
professional and home recording  
studios special equipment  
records the music that people  
listen to on pact discs cds and  
their puters sound recording is  
also used in radio television  
and movies'

'tape recorder  
May 28th, 2020 - an audio tape  
recorder tape deck or tape  
machine is a sound recording  
and reproduction device that  
records and plays back sounds  
usually using magnetic tape for  
storage in its present day form  
it records a fluctuating signal  
by moving the tape across a  
tape head that polarizes the  
magnetic domains in the tape in  
proportion to the audio signal  
tape recording devices include  
the reel to''sound recording  
tutorial amp online course  
audio concepts

June 5th, 2020 - sound  
recording starts with the sound  
itself whether it s an electric  
guitar or human voice it all  
begins with a vibration that  
needs to be properly captured  
that s why having the knowledge  
of the science of recording is  
essential for audio engineers
